ABOUT ISPEED

Our global logistics expertise, advanced supply chain technology and customized logistics solutions will help you analyze, develop, and implement successful supply chain management strategies from end-to-end.

Established in 2012, iSpeed Freight India Pvt Ltd is one of India's leading integrated logistics service providers with comprehensive sea freight and air freight expertise. As an international multimodal freight forwarding company, we tailor our solutions towards a holistic services approach catering to all logistics needs. Our extensive global network based on robust carrier relationships enables us to deliver the best-in-class logistics solutions for your supply chain.

Fostering long-term and trustworthy business relations is one of the core principles of iSpeed, and we have successfully established powerful networks and long-lasting relationships with carriers and other stakeholders worldwide. We work with global partners across major trade lanes. Our extended networks ensure a seamless movement of your raw materials or finished goods from origin to destination across all parts of the globe. Our constant focus on providing the best quality solutions at competitive prices has ensured flexible, reliable, swift, accurate, and secure services. We value the need for a robust and agile logistics network to build a resilient supply chain for your business relevant to the current global scenarios.

iSpeed was founded by highly experienced logistics industry professionals with in-depth knowledge and expertise of how the freight and logistics industry functions. With an established experience in the domain and handling various types of shipments from air freight to sea freight to project cargo, iSpeed Freight has managed to carve a niche of its own in the past couple of years in the industry. Our strong reputation of robust and efficient service delivery worldwide has been built by a team of committed professionals with diverse experience in supply chain solutions.

LOGISTICS TO CONNECT YOUR WORLD

OUR MISSION

Our mission is to uplift every small, medium, or large-sized business's supply chain performance level that matches global standards by building a robust logistics framework. We strive to lower global and physical barriers in logistics enabling your business to achieve your goals and grow sustainably throughout the years.

OUR VISION

At iSpeed, we aim to help you navigate the complexities of shipping easily while functioning as an extension of your supply chain. We strive to augment your business with the best logistics solutions while giving you the freedom to focus on your core competency. Through our commitment to excellence and delivering unmatched service levels, we want to be recognized as the trusted logistics partners for any business.

Air Freight services for swift, transparent, and reliable deliveries

At iSpeed Freight, we understand that time means everything when delivering your goods by air. We ensure unmatched air freight services at the best rates for your shipments, guarantee real-time visibility & complete transparency in shipment execution to deliver an exceptional customer experience.

Outstanding Customer Service Levels

With our years of expertise handling a multitude of shipments of every size, category, or industry, we at iSpeed Freight vouch for delivering an outstanding customer experience.

Trusted Global Network

Our trusted relations with significant carriers and external stakeholders fostered over years of work in the industry ensure enhanced capacity allocation for your cargo on all major global trade lanes.

Total Transparency

We understand that air cargo is time-sensitive, and we strive to keep you updated about the real-time whereabouts of your shipment across the supply chain.

Deliveries that are Reliable and Fast

With iSpeed Freight, you can now let your cargo move across the globe seamlessly while you sit back and relax. Our expertise in handling various cargo sizes, commodity types, and a trustworthy carrier relationship portfolio ensures timely deliveries, an unparalleled cargo handling experience, and excellent service levels.

AIR FREIGHT

CHECK OUR AIR FREIGHT

Air Export

Recent times have witnessed a large increase in the movement of goods via air. With the global crisis in place, air export is of utmost importance to move goods that are highly time-sensitive or goods that simply need to be delivered faster. At iSpeed Freight, we understand that a growing business demands a logistics provider that can match capacity requirements, ensure connectivity across trade lanes, and commits to outstanding service levels.

Unmatched Customer Service

We cater to all businesses irrespective of their size or industry to enable them to derive the best out of their supply chain.

Secure cargo deliveries

We value your cargo as much as you do

Air Import

Air import can be a tricky domain with compliance, mandatory documentation work, and constant coordination with various supply chain players to ensure smooth delivery of your shipment. At iSpeed Freight, we understand the importance of all the legalities and procedures and thus leverage our partnerships with stakeholders to get things done swiftly to get your cargo delivered to your choice of destination. Avoid unnecessary delays and extra costs or penalties with iSpeed Freight's trusted air import services.

Full control

Gain complete control of your inbound shipments

Enhanced visibility

Get more visibility and know the real-time status of your shipments

Hassle-free shipping

Our air freight experts will manage carrier communication, customs, compliance, and documentation while being available for any needed support 24/7.

Cost and Time Savings

Avoid the three Ds; delays, detention, and demurrage.

CHECK OUR AIR FREIGHT

We ship oversized and overweight cargo to multiple destinations worldwide. Special cargo demands special care, special documentation, and legalities. At iSpeed Freight, we ensure a smooth and efficient movement of any ODC to the final destination while keeping in check the strict mandates related to size, load, capacity, packaging, and transit times for the movement. We specialize in export clearance, inspection, and other transportation services for special cargo movements, thereby giving you the freedom to focus on your core competency while choosing the most convenient and reliable services.

Special Cargo

HAZ Cargo

Specialized handling, compliance, and adhering to government rules and regulations are primary to moving hazardous cargo. Additionally, proper packaging and labeling are integral to compliance requirements for dangerous goods movement via air. iSpeed Freight understands the complexities of moving dangerous cargo and the various regulations surrounding it. Trusting iSpeed Freight with your hazardous goods means freedom from the hassles of managing all compliance, proper adherence to regulations, and smooth transportation.

We understand that capacity bottlenecks on busy trade lanes can be a major let-down. When you need urgent deliveries or need to access remote destinations, chartering your cargo can be the best solution available. At iSpeed Freight, we understand the need for urgent arrangements to make your goods available at the right place and at the right time. We offer flexible and reliable air chartering services for emergency, special cargo, and Aircraft on Ground requirements. Our extensive expertise, an extended network of carriers, and access to capacity will support your need for tailored air freight planning.

Chartering

Consolidation

Air Cargo consolidation is when multiple shipments from various shippers are combined and booked together under a single AWB. We understand that the benefits of air cargo consolidation can be many, from significant cost savings to optimized flight planning for carriers. At iSpeed Freight, we assure you efficient consol services for your air shipments for a seamless movement across the globe. Now enjoy the benefits of faster deliveries while cutting down on extra costs.

Ocean Freight Solutions that propel your company's growth

Now deliver your freight on time at the correct place while gaining superior visibility across your supply chain. iSpeed Freight supplements your supply chain performance with a robust ocean logistics network that ensures your freight reaches its destination. Our extensive carrier relationships and global partner network guarantee a seamless shipping experience with 24/7 customer assistance tailored to your business needs.

End-to-End Freight Solutions

Opt for our FCL and LCL shipment options, pre and on-carriage services for a holistic sea freight experience.

Real-Time Visibility of your Shipments

CHECK OUR SEA FREIGHT

HAZ Cargo

- **Proper Packaging**
We understand that every class of hazardous substances may have varied packaging requirements based on the dangerous cargo classification. We ensure compliance with packaging mandates for hazardous goods and adhere to Government rules and regulations.
- **Correct Classification & Labelling**
The IMDG code classifies dangerous goods into various categories. The classification of hazardous cargo is mandatory before shipping. Appropriate labeling of these goods is also of utmost importance to enable the correct identification of the materials and their proper handling.
- **Proper Segregation from Other Cargo**
Hazardous cargo usually is reactive with other ambient substances. Thus, shippers must ensure proper segregation of these goods from other cargo to ensure safe and appropriate handling.

At iSpeed Freight, we have moved various break-bulk shipments over the years to different parts of the world. We can facilitate the easy and smooth movement of your breakbulk cargo from origin to destination. With our combined years of expertise and extensive professional network in the breakbulk and project cargo forwarding industry, we know how to safely transport your shipment to the destination at the right time.

Breakbulk and Project Cargo Shipping

Break Bulk shipping enables the movement of large cargo in smaller units like pallets, barrels, drums, boxes, or bags. One of the best shipping choices for freight that is uneven, heavy, and too large to place in containers, Break Bulk shipping is efficient and cost-effective. Oversized cargo can be easily disassembled, packed, shipped, unloaded, and delivered at the final destination to be assembled again. While container cargo handling may require special port infrastructure and facilities, break-bulk cargo can be easily handled at various ports, even in remote areas of the world. For moving heavy machinery, break-bulk shipping is the preferred choice of transportation.

At iSpeed Freight, we have moved various break-bulk shipments over the years to different parts of the world. We can facilitate the easy and smooth movement of your breakbulk cargo from origin to destination. With our combined years of expertise and extensive professional network in the breakbulk and project cargo forwarding industry, we know how to safely transport your shipment to the destination at the right time.

WAREHOUSING AND DISTRIBUTION

With an exponential rise in e-commerce and other businesses, there is an ever-growing need for scalable warehousing and distribution services. Comprehensive warehousing and distribution solutions ensure an optimized supply chain network and smooth operations for any business.

iSpeed Freight specializes in providing tailored warehousing and distribution solutions that match your business' specific requirements. Our extended and robust warehouse network with strategically located distribution centers cater to vast geographic expanses. We guarantee excellent inventory management and swift deliveries of your goods. We rely on state-of-the-art technology to manage these facilities to ensure enhanced inventory visibility for your supply chain. Additionally, our temperature-controlled storage facilities provide better inventory management of perishables.

We also provide strategic inventory management for your businesses through FTWZ services. Our FTWZ warehousing solutions ensure cost optimization and enhanced savings for our customers. These specialized FTWZ solutions provide customers tax exemptions, simplified export procedures, single-window clearances, and numerous other benefits.

DOMESTIC TRANSPORTATION

Supply chains largely depend on a robust and extensive surface transportation network. With iSpeed Freight, you are guaranteed a reliable transportation service provider that can help you strategically plan your transit to derive optimum efficiency and reduce costs.

Our expansive network of fleet operators and 3PL service providers makes shipping your cargo within the country easy and smooth. Our vendors are selected through careful discretion and evaluation and are the best-in-industry. We commit to closely monitored processes that ensure proper vendor management and periodic performance evaluation to deliver excellent services. The consequence of a strict protocol of selecting and monitoring the right kind of vendors enables us to pay dedicated attention to our customers' logistics planning and support them to attain their logistics targets.

At iSpeed Freight, we specialize in partial loads, FTL, LTL, and parcel movements within the country. We also cater to FTL cargo movement from origin to various depots. Our service offerings also cater to particular seasonal demands across the country.

CUSTOMS BROKERAGE

The dynamic world of export and import policies, free zones, special treaties, etc., makes it necessary to choose a logistics service provider well informed about the industry's latest developments. We understand that dealing with customs formalities can be overwhelming given its dynamic nature and extensive documentation work.

At iSpeed Freight, as your logistics partner, we guide you to efficiently manage the customs regulations and paperwork that are critical to shipping your goods. We make sure to understand your specific requirements and guide you through formalities, mandates, and regulations. Our experts are fully updated with changes in customs compliance, regulations, policies, and procedures and offer best-in-class services for all your customs-related queries and requirements.

PROJECT CARGO

Strategic decisions to diversify supply chains may need the movement of heavy machinery, equipment, and other infrastructural requirements in the form of project cargo. These shipments are large, bulky, and oddly sized to fit in shipping containers. They require special attention and additional capabilities to disassemble, load, ship, and then reassemble at the destination.

At iSpeed Freight, we understand the heavy-lift cargo shipping requirements and specialize in catering to project cargo movement. We ensure that the movement of your project cargo is easy, efficient, and end-to-end. Our experience of working with varied industries combined with our systematic planning and execution of the assignment with particular attention to Government mandates and special requirements make us a preferred partner to move your project cargo. Our comprehensive and varied customer portfolio management guarantees operational excellence, seamless handling, and movement for all your ODC freight bookings via open tops, flat racks, or flatbeds. We also cater to Customs Broking for special cargo and ensure that your shipment reaches its destination on time.

We move your Cargo with Honesty and Greatness

Adding Speed to Deliveries That Lets your Business Better.

We offer Reliable and Competitive International Freight Forwarding Solutions that Support your Continual Growth and Expansion in Old and New Markets. Our Special Capabilities Handle Quota Issues, Customs and Quarantine Procedures.
